

Third Quarter Risk Update

2023/24

February 2024
Corporate Service PAC
Report Author: Uche Olufemi
(Emergency Planning & Resilience Manager)

Introduction

A key principle of good governance is managing the ***effect of uncertainties on the achievement of our objectives***. Having arrangements in place to identify and manage our risks increases the probability of achieving corporate and operational objectives by controlling risks in balance with resources. Good risk management also increases our ability to cope with developing and uncertain events and helps to instil a culture of continuous improvement and optimisation.

The Risk Management Framework sets out how the Council identifies, manages, and monitors risks. This includes the risk appetite statement, which articulates how much risk the Council is comfortable with and able to bear. The Council has recently updated the Risk Management Framework which will be shared with the Corporate Services Portfolio Holder.

The purpose of this report is to provide an update on the council’s risk information considering any changes to existing risk and highlighting emerging ones. This report sets out the Council’s corporate risks, describes the risks ‘on the horizon’ and includes the Council’s operational risk profile, detailing the most significant operational risks.

The Council’s overall risk profile is pictured in the charts below. These show an increase in the overall number of risks following addition of one red operational risk.

Current Risk Rating (Nov' 23)

Current Risk Profile (Feb' 24)

Corporate Risks

The Council's corporate risks are reported quarterly to the Corporate Services Policy Advisory Committee to ensure effective oversight and monitoring. The risks are reviewed and updated by risk owners to include progress against any related risk actions.

The table below summarises the **15** risks on the corporate risk register. Further details on the corporate risks, including a description of the risk and details of existing and planned controls are included in Appendix A. Appendix B outlines the impact and likelihood scoring criteria.

One corporate risk rating has been downgraded from black to red and a couple of mitigated risk ratings reduced to reflect increased control measures and current situation. Below are the affected risks:

- 1. Financial Uncertainty:** The reduced risk rating from a black to red risk acknowledges the council's current positive financial position. The drop in the mitigated risk rating from 16 to 12 reflects the control measures and planned actions detailed in Appendix A of this report.
- 2. Loss of Workforce Cohesion:** With an original rating of 9, the reduced mitigated risk rating of 6 reflects strategies, policies, procedures, and activities that are in place and effective controls to mitigate this risk. Details of these controls are captured in Appendix A of this report.
- 3. Failure of Contractor:** While this continues to be a red risk, the mitigated rating is now reduced from 12 to 9. This change in rating reflects measures in place such as contract monitoring arrangements for major contractors, financial sustainability embedded in the procurement process, and on-going financial performance and resilience checks for our contractors and suppliers.

External Threats (horizon scanning)

Our horizon scanning process identifies external threats over which we have no direct control or ability to manage the impact on delivery of our priorities. Our response to these threats will be an important factor in how we develop our strategies, policies and how we translate that into service delivery.

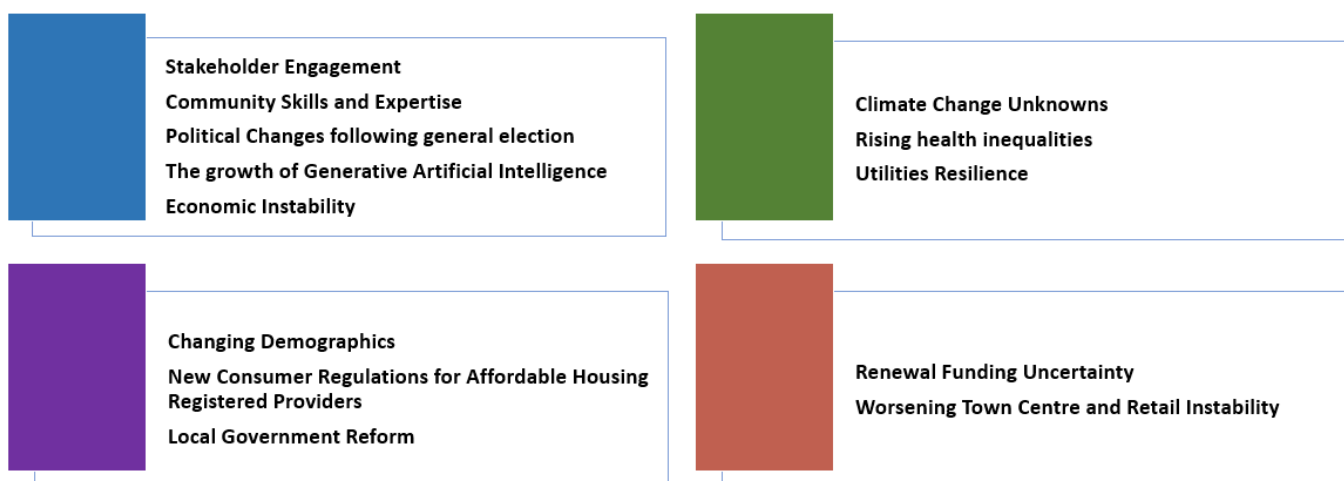

We will run a horizon scanning workshop in 2024 to further explore global risk reports and the latest thinking on emerging risks. This workshop will be aimed at inspiring conversations about emerging risks to enable us continue to build resilience.

We will keep monitoring these threats and continue to provide updates as part of the quarterly audit report.

The diagram below summarises the current external threats aligned to each of our priorities.

Embracing Growth & Enabling Infrastructure

Safe Clean & Green

Homes & Communities

Thriving Place

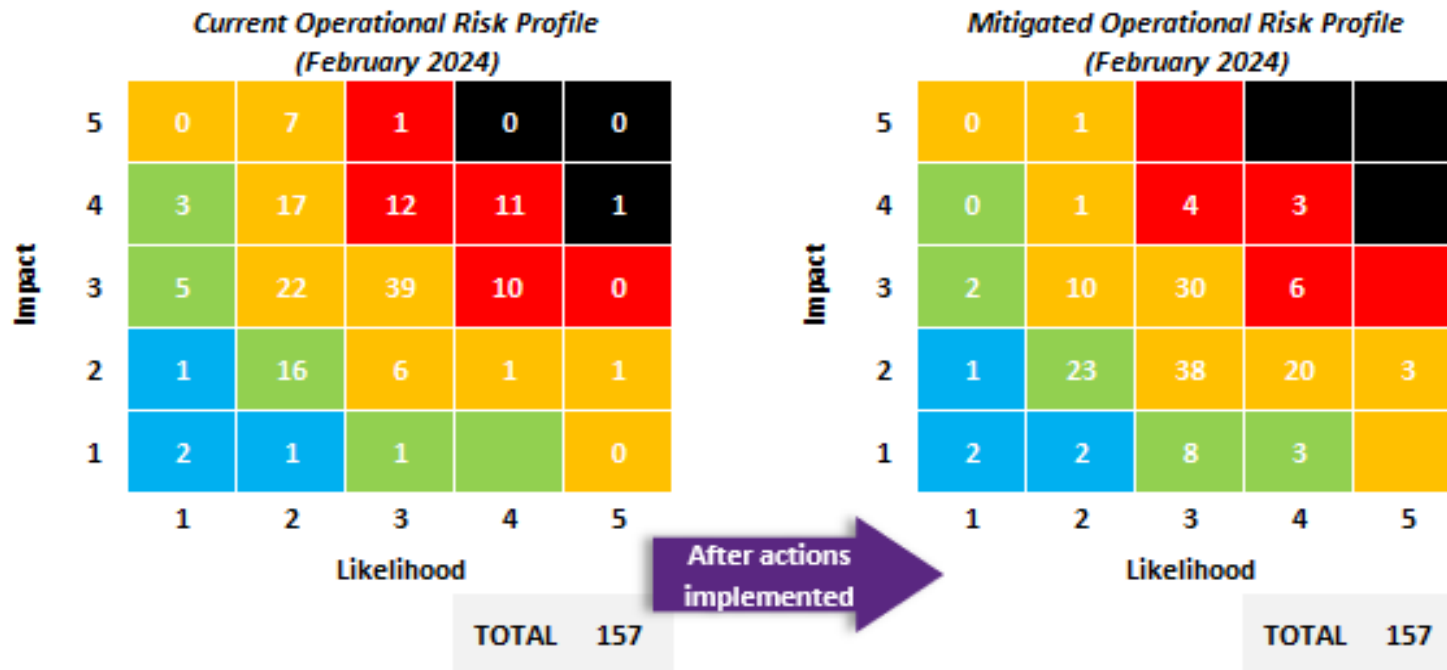

The following points provide some more detail on the threats outlined in the diagram above:

1. **Changing Demographics** – changes in local demographics as local residential development expands and census results become clearer, changes predicted to service provision.
2. **Climate change unknowns** – some of the implications of climate change are already captured within the corporate risk register. This reflects the possibility of other yet unknown implications from climate change. An emerging risk here is the rising carbon offsetting costs.
3. **Community skills and expertise** – decline in diversity of skills and expertise within communities.
4. **Economic Instability** – uncertainty around employment rates, interest rates and inflation increase, and the affect this will have on the local economy, residents’ financial position and our operational and contractual costs and wage bill.
5. **Political Changes following general election** – uncertainty around the changes that could result from the general election.
6. **The growth of generative Artificial Intelligence** – the growing interest in the use of AI comes with potential threats. A team is in the process of exploring this further and developing an AI policy for the council.
7. **Rising health inequalities** – increasing inequality in access to health care provisions.
8. **Stakeholder engagement** – heightened sensitivity to Council plans leading to increased intolerance and complaints.
9. **Utilities Resilience** – loss of water, electricity, or telecoms over a wide area in the Borough.
10. **Worsening Town Centre and Retail Instability** – Uncertainty around how many more major retailers could potentially leave the town centre and the resulting impact.

11. **New Consumer Regulations for Affordable Housing** - As the council pursues the 1,000 affordable homes programme, there will come a point where we will be a registered provider and subject to the new consumer standards. New consumer standards will go live in April 2024.
12. **Local Government Reform** – the potential implications of implementing local government reforms.

Operational Risks

The following matrix sets out the operational risk profile of the Council including shared service risks. It shows the ‘business as usual’ position (**current risk**) and the position once all planned actions are implemented (**mitigated risk**). Compared to November 2023, the overall number of operational risks has increased by 1 from 156 to 157.

The single black operational risk is detailed below:

1. Unable to provide Building Control Service if staff are not licensed with the HSE by 1 st April 2024 in accordance with the new Building Safety Act.			
Service Area: Building Control	Ownership: Robert Wiseman	Current Score: 15 x L4	20
<p>Causes</p> <p>Insufficient number of licensed surveyors to carry out the operational duties.</p> <p>Consequences</p> <p>Inability to deliver the service or train staff A need for agency staff leading to increased costs Inability to carry out statutory functions.</p>	<p>Existing Controls</p> <ul style="list-style-type: none"> • All staff being supported and working towards attaining accreditation by April 2024 • Arrangements in place to recruit agency staff if needed • Trainee/ Apprenticeship programme to recruit and train new staff 	<p>Risk Response</p> <ul style="list-style-type: none"> • We now have a clear understanding of the implications of the Building Safety Act • Staff on training courses to achieve the accreditation 	
Next Risk review: October 2024	Risk direction over time: Reduced mitigated risk profile from 12	Mitigated Score: 13x L4	12

Appendix A Corporate Risk Register

Risk (title & full description)	Risk Owner	Key Existing Controls	Current rating (I x L)	Planned Actions	Mitigated rating (I x L)
<p>Inflation continues to rise and a significant economic event (e.g. further pandemic impacts, BREXIT, supply chain issues) causes significant changes in construction costs which may also result in a contractor insolvency, as they are generally locked into delivering schemes at a fixed price, and so need to manage their exposure to rising costs in their supply chain. For the Council, this leads to a narrowing gap between build price and end of property values, increased costs to the Council and a possible time lag in delivery of 1000 affordable new homes, owing to a lack of capacity in the construction sector.</p>	<p>William Cornall</p>	<ul style="list-style-type: none"> • Use of "off-site" and other Modern Methods of Construction where possible to ensure schemes are delivered efficiently • Designing buildable efficient schemes • Financial stability and overall exposure checks for contractor • Performance bonds and quality monitoring • Realistically set financial scheme approval hurdle rates • Appointment of a single architect, employers' agent and development management specialist as a consistent professional team to support the Council in it delivery of the 1,000 homes programme • Internal team has been strengthened by the creation of and recruitment into three new roles 	<p>(4 x 5) 20</p>	<ul style="list-style-type: none"> • Exploration of suitable contractor frameworks to access. • Managing exposure levels to different contractors as the programme gathers momentum. • Delaying the letting of key contracts if tendering does not yield VFM proposals that are financially robust. • Careful scheme design evolution to enhance the "buildability" of new projects. 	<p>(4 x 4) 16</p>

Appendix B Impact and Likelihood Definitions

Risks are assessed for impact and likelihood. So that we achieve a consistent level of understanding when assessing risks, the following definitions were agreed and have been used to inform the assessment of risks on the risk register.

RISK IMPACT

Level	Service	Reputation	H&S	Legal	Financial	Environment
Catastrophic (5)	Ongoing failure to provide an adequate service	Perceived as a failing authority requiring intervention	Responsible for death	Litigation almost certain and difficult to defend Breaches of law punishable by imprisonment	Uncontrollable financial loss or overspend over £500k	Permanent, major environmental or public health damage
Major (4)	Failure to deliver Council priorities Poor Service, 5+ days disruption	Significant adverse national publicity	Fails to prevent death, causes extensive permanent injuries or long term sick	Litigation expected and uncertain if defensible Breaches of law punishable by significant fines	Financial loss or overspend greater than £250k	Long term major public health or environmental incident (1+ yrs)
Moderate (3)	Unsatisfactory performance Service disrupted 3-5 days	Adverse national publicity of significant adverse local publicity	Fails to prevent extensive permanent injuries or long term sick	Litigation expected but defensible Breaches of law punishable by fines	Financial loss or overspend greater than £50k	Medium term major public health or environmental incident (up to 1 yr)
Minor (2)	Marginal reduction in performance Service disrupted 1-2 days	Minor adverse local publicity	Medical treatment required Long term injuries or sickness	Complaint or litigation possible Breaches of regulations or standards	Financial loss or overspend greater than £10k	Short term public health or environmental incident (weeks)
Minimal (1)	No performance reduction Service disruption up to 1 day	Unlikely to cause adverse publicity	First aid level injuries	Unlikely to cause complaint Breaches of local procedures	Financial loss or overspend under £10k	Environmental incident with no lasting detrimental effect

RISK LIKELIHOOD

Level	Probability	Description
Almost Certain (5)	90% +	Without action is likely to occur; frequent similar occurrences in local government / Council history
Probable (4)	60% - 90%	Strong possibility; similar occurrences known often in local government / Council history
Possible (3)	40% - 60%	Might occur; similar occurrences experienced in local government / Council history
Unlikely (2)	10% - 40%	Not expected; rare but no unheard of occurrence in local government / Council history
Rare (1)	0% - 10%	Very unlikely to occur; no recent similar instances in local government / Council history
