

STATEMENT OF ACCOUNTS 2021/22 (Draft – subject to external audit)

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Council's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In the Council, that officer is the Director of Finance & Business Improvement.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

The Director of Finance & Business Improvement's Responsibilities

The Director of Finance & Business Improvement is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Director of Finance & Business Improvement has:

- Selected suitable accounting policies and applied them consistently.
- Made judgements and estimates that were reasonable and prudent.
- Complied with the Code.

The Director of Finance & Business Improvement has also:

- Kept proper accounting records which were up to date.
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that this Statement of Accounts gives a true and fair view of the financial position of the Council at the reporting date and of its expenditure and income for the year ended 31st March 2022.

Signed:

Mark Green, Director of Finance & Business Improvement

Date: 18th July 2022

PRIMARY STATEMENTS

COMPREHENSIVE INCOME & EXPENDITURE STATEMENT

For the years ending 31st March 2021 & 2022

	2020/21				2021/22	
Gross	Gross	Net		Gross	Gross	Net

Movements between Reserves	3,496	(3,500)	0	(4)	0	(4)
Increase or Decrease in 2021/22	4,151	(3,500)	(171)	480	17,259	17,739
Balance at 31st March 2022	14,425	19,456	285	34,173	30,062	64,235

Comparative Year	General O Fund O Balance	b Earmarked O GF Balances	Capital O Receipts O Reserve	ሕ Total Usable O Reserves	Unusable Reserves O (Restated)	m Total O Reserves
Balance at 1st April 2020	8,821	7,820	549	17,193	44,565	61,758
Movement in Reserves during 2020/21						
Total Comprehensive Income & Expenditure	3,429		0	3,429	(18,691)	(15,262)
Adjustments between accounting basis & funding basis under regulation (Note 6)	13,260	(90)	(93)	13,077	(13,077)	0
Movements between Reserves	(15,235)	15,225		(10)	10	0
Increase or Decrease in 2020/21	1,454	15,135	(93)	16,499	(31,758)	(15,262)
Balance at 31st March 2021	10,274	22,955	456	33,691	12,805	46,496

The statement shows the movement from the start of the year to the end on the different reserves held by the Council, analysed into usable reserves (i.e. those that can be applied to fund expenditure or reduce local taxation) and other unusable reserves. The statement shows how the movements in year of the authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax for the year. The net increase/decrease line shows the statutory general fund balance movements in the year following those adjustments.

BALANCE SHEET

		(13,160)	Less/Plus (Surplus) or Deficit on General Fund Balance in Year			1,861
		33,231	Closing General Fund Balance at 31st March			33,881

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, rents and other charges, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's service committees. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Note i – Adjustments for Capital Purposes

• This column adjusts the service committees for the statutory adjustments put through in respect of depreciation, amortisation of intangible assets, revenue funding from capital under statute, and other capital charges.

Note ii - Net Charge for Pensions Adjustments

 This column adjusts the service committees for the statutory adjustments put through in respect of IAS 19 Employee Benefits pension related income and expenditure.

Note iii - Other Differences

 This column adjusts the service committees for various recharges such as accommodation, telephones, staff recharges and IT recharges as when they are reported they only include direct costs.

EXPENDITURE AND INCOME ANALYSED BY NATURE

	2020/21 £000	2021/22 £000
Expenditure		
Employee Benefit Expenses Other Services Expenses Depreciation, Amortisation, Impairment Interest Payments Precepts & Levies Total Expenditure	22,762 95,017 5,214 153 2,129 125,275	25,893 94,768 4,903 126 2,240 127,930
Income		
Fees, Charges & Other Service Income Interest & Investment Income Income from Council Tax & NDR Government Grants & Contributions Gain/(Loss) on the Disposal of Assets Total Income	(26,610) (36) (43,191) (54,611) (4,253) (128,702)	(47,751) (7,786)
(Surplus) or Deficit on the Provision of Services	(3,428)	(2,517)

Within the line for Fees, Charges & Other Service Income there are some receipts accounted for under IFRS 15, which recognises revenue from contracts with service recipients. The amount recognised within this line is as follows:

Service Area	2020/21 £000	2021/22 £000
Accommodation	(512)	(1,084)
Central Services	(807)	(737)
Cultural & Related Services	(308)	(916)
Environment & Regulatory Services	(4,104)	(4,071)
Housing Services	(1,503)	(1,659)

Other Support Services	(2,329)	(2,424)
Parking Services	(2,443)	(3,880)
Planning Services	(2,754)	(5,285)
Property Services	(3,997)	(2,573)
Fees, Charges & Other Service		
Income	(19,590)	(23,844)

2 - ACCOUNTING POLICIES

General Principles

The Statement of Accounts summarises the Council's transactions for the 2021/22 financial year and its position at the year-end of 31st March 2022. The Council is required to prepare an annual Statement of Accounts by the Accounts & Audit Regulations (England) 2015 which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the UK 2021/22, supported by International Financial Reporting Standards (IFRS).

The following accounting concepts have been given precedence in the preparation of the accounts:

- Going concern
- Primacy of legislative requirements

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

Revenue Recognition

In accordance with IFRS 15, revenue is accounted for at the point at which services are delivered to service recipients, not necessarily when cash payments are made or received. In particular:

• Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services

are transferred to the service recipient in accordance with the performance obligations in the contract.

- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Accruals are recognised where the value exceeds £10,000.

Income from Council Tax and Non-Domestic (Business) Rates:

Revenue relating to council tax and business rates is measured at the full amount receivable (net of any impairment losses) as they are non-contractual, non-exchange transactions. Revenue is recognised when it is probable that the economic benefits of the transaction will flow to the Council and the amount of revenue can be measured reliably.

The council tax and business rate income included in the Comprehensive Income & Eexpenditure Statement is the accrued income for the year, which consists of:

- The Council's council tax precept and business rate share from the Collection Fund i.e. the amount billed for the year; and
- The Council's share of the actual council tax and business rate surplus or deficit on the Collection Fund at the end of the current year, adjusted for the Council's share of the surplus or deficit on the fund at the preceding year end that has not been distributed or recovered in the current year.

The latter is not required by regulation to be credited to the General Fund and so is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement on the General Fund balance.

The Council as billing authority recognises a creditor in its balance sheet for cash collected from taxpayers and businesses on behalf of major preceptors but not yet paid to them, or a debtor for cash paid to major preceptors.

Overheads & Support Services

The costs of support services and overheads are charged to those that benefit from the supply or service in accordance with the absorption costing principle.

The full cost of overheads and support services is shared between users in proportion to the benefits received.

Prior Period Adjustments, Changes in Accounting Policies and Estimates & Errors

Prior period adjustments may arise as result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current or financial years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

Value Added Tax

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue & Customs. VAT receivable is excluded from income.

Further accounting policies can be found throughout these accounts with the notes to which they relate.

ROUNDING

It is not the Council's policy to adjust for immaterial cross -casting differences between the main statements and disclosure notes.

3 - CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- A comprehensive review of all property leases was undertaken at the end of 2017/18 to determine whether they should be classified as an operating lease (which are off-Balance Sheet), or a finance lease (which is on-Balance Sheet). The result of this review was that the Council currently has no property leases which need to be classified as finance leases.
- A review of the contract for waste collection has determined that the contractual arrangements do not meet the requirements of IFRIC 4.
- It has been determined that an arrangement between the Council and the managing contractor of the Leisure Centre is classified as a service concession arrangement. Under the terms of the arrangement the Council makes regular payments over a 15 year period to cover the costs of major refurbishment works which have been undertaken by the contractor.
- A judgement has been made as to which of the council's assets fall under the category of Heritage Assets, and the appropriate basis for valuation and disclosure. The outcome of this judgement is reflected in the Heritage Assets note.
- A review of operational assets not revalued this year has been undertaken
 to determine whether or not there could have been a material movement
 in the asset values. Using guidance from the external valuer, it has been
 concluded that the assets are materially fairly stated.
- As a wholly owned subsidiary of the council, Maidstone Property Holdings Limited falls within the group boundary on the grounds of control and significant influence in line with the Code. However, the Council's interests in aggregate are not sufficiently material to warrant producing consolidated financial statements when reviewing both quantitative and qualitative information. For this reason, group accounts are not deemed necessary within these statements.
- The Council has determined that it does not need to prepare group accounts to include Cobtree Manor Estate Trust, on the grounds that the Council neither controls, jointly controls, nor has significant influence over the Trust. Councillors who sit on the Cobtree Manor Estate Charity Committee act on behalf of the Trust in their decision making, rather than in the interests of Maidstone Borough Council. The objectives of the Trust derive from a separate trust, the Cobtree Charity Trust, and cannot be influenced by the Council's objectives. The Council does not control the Trust in its capacity as an investor, it is not exposed to variable returns from its involvement with the Trust, and the Trust does not provide any services which the council would otherwise be obliged to provide. The council provides services to the Trust in terms of the day to day administration of its affairs and grounds maintenance of Cobtree Manor

Park. The Council recharges the cost of providing these services to Cobtree Manor Park but does not seek to generate a surplus from the arrangement.

4 - ASSUMPTIONS MADE ABOUT THE FUTURE & OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's financial statements at 31st March 2022 for which there is a significant risk of material adjustment in the forthcoming year are as follows:

Balance	Source of Uncertainty	Effect if actual results differ from assumptions
Property valuations	Property valuations are based on market prices and are periodically reviewed to ensure that the Council does not materially misstate its non-current assets and investment properties. The Council's external valuers provided valuations for the Council's entire investment portfolio and a proportion of its operational portfolio. The remaining balance of operational properties was also reviewed to ensure values were reflective of current appropriate values. Valuations have been undertaken in accordance with the latest professional guidance. The estimated remaining useful life of all operational assets is reviewed annually based on the advice from the Council external valuers.	A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and / or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement (CIES). If the value of the Council's property portfolio were to reduce by 10%, this would result in a change of approximately £9.9m. This would not impact on the general fund balance. An increase in estimated valuations would result in increases to the Revaluation Reserve and / or reversals of previous negative revaluations to the Comprehensive Income and Expenditure Statement and / or gains being recorded as appropriate in the Comprehensive Income and Expenditure Statement.

Balance	Source of Uncertainty	Effect if actual results differ from assumptions
Fair Value of Investment Property	The Council's external valuers use valuation techniques to determine the fair value of investment property. This involves developing estimates and assumptions consistent with how market participants would price the property. The valuers base their assumptions on observable data as far as possible, but this is not always available. In that case, the valuers use the best information available.	Estimated fair values may differ from the actual prices that could be achieved in an arm's length transaction at the reporting date. A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and / or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement (CIES). If the value of the Council's property portfolio were to reduce by 10%, this would result in a change of approximately £4.1m. This would not impact on the general fund balance.
Depreciation	Assets are depreciated over useful lives which are based on the level of repairs and maintenance that will be incurred in relation to individual assets. If current spending on repairs and maintenance were to be reduced, this could affect a change to useful lives assigned to the assets.	Depreciation charges for operational buildings will change in direct relation to changes in estimated fair value. Furthermore, if the useful life of assets is reduced the annual depreciation charge increases and the carrying amount of the asset falls. It is estimated that the annual depreciation charge for buildings would increase by £0.1m for every year that useful lives had to be reduced.
Pensions Liability	Estimation of the net liability to pay pensions depends on several complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund investments.	 A 0.1% increase in the discount rate will reduce the net pension liability by £6.6m; A 0.1% increase in the assumed level of pension increases and deferred revaluation will increase the net pension liability by £7.1m;

Balance	Source of Uncertainty	Effect if actual results differ from assumptions
	The Council has engaged Barnett Waddingham as its consulting actuary to provide expert advice about the assumptions to be applied. The ongoing impact of the Covid19 pandemic has created uncertainty surrounding illiquid asset values. As such, the Pension Fund property and infrastructure allocations as at 31 March 2022 are difficult to value according to preferred accounting policy.	• An increase of one year in longevity will increase the net pension liability by £7.1m.
Arrears	At 31st March 2022 the Council had a balance of sundry debtors for £15m. A review of significant balances suggested that an impairment allowance for bad debts of £4.8m was appropriate. The calculation of this estimate is specific to the different classes of debtor but is generally based on the age of the debt and likelihood of recoverability. Uncertainty remains as to whether or not such an allowance will be sufficient to cover non-payment of these debts.	If collection rates were to deteriorate, a 50% increase in the level of impairment required for doubtful debts would require an additional £2.4m to be set aside as an allowance.
Non- Domestic Rates Appeals	The Collection Fund is liable for potential losses arising from appeals against the rateable value of business premises. A provision of £7.2m has therefore been created to recognise current and backdated appeals. The council's share of the provision of £2.9m is reflected on the balance sheet. This is deemed to be appropriate as it is	If the yield losses from successful appeals were to increase by 10%, an additional provision of £0.728m would be required overall, and the council's share of the provision would increase by £0.289m.

Balance	Source of Uncertainty	Effect if actual results differ from assumptions
	based on a detailed analysis of information provided by the VOA.	
	There is uncertainty regarding the value of potential losses against the 2017 valuation list. A provision of 2.1p per pound of rateable value is reflected in the above total.	
	These calculations are made with reference to information supplied by an external advisor, Analyse Local.	
	Uncertainty exists as to whether or not the provision will be sufficient to cover refunds made following successful rateable value appeals, or whether the current provision is excessive.	
Brexit	The UK stopped being a member of the European Union (EU) at 23:00 GMT on 31 January 2020. However, significant uncertainty remains concerning the UK's future relationship with the EU. Current assumptions underlying asset valuations and pensions liability assume no significant impact from Brexit.	Depending on the continuing circumstances of Britain's departure from the EU, it is possible that asset values may fall and/or that assumptions underlying the assessment of pensions liabilities may alter.

5 - ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code requires changes in accounting policy to be applied retrospectively unless alternative transitional arrangements are specified in the Code. An authority is required to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the Code for the relevant year. The additional disclosures that will be required in the 2022/23 financial statements in respect of accounting changes that are introduced in the 2022/23 Code are:

- Implementation of IFRS 16 Leases
- Service concession arrangements liability measurement

There are a number of other new standards being issued or updated, but these are nor expected to be relevant to the 2022/23 financial Statements for Maidstone.

There are no new standards that have been issued but not yet adopted which, when adopted, are expected to have a material impact on the Council's financial statements.

6 - ADJUSTMENTS BETWEEN ACCOUNTING BASIS & FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the year in which liabilities and payments should impact on the General Fund balance, which is not necessarily in accordance with proper accounting practice. The General Fund balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which it can take place.

Accounting Policy - Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service
- Revaluation & impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible non-current assets attributable to the service

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation.

7 - EARMARKED RESERVES

Within the General Fund balance of £33.854m at the end of the year the Council maintains a number of Earmarked Reserves for specific purposes as follows:

	31st March 2021 £000	Contributions to/from Balances £000	31st March 2022 £000
Neighbourhood Planning	97	0	97
Planning Appeals	286	0	286
Trading Accounts	30	(30)	0
Civil Parking Enforcement	169	231	400
Future Capital Expenditure	1,131	1,295	2,426
Future Funding Pressures	969	0	969
Homelessness Prevention & Temporary			
Accommodation	773	506	1,279
Business Rates Earmarked Balances	3,788	(104)	3,684
Funding for Future Collection Fund Deficits	14,737	(6,346)	8,391
Commercial Risk	500	0	500
Invest to Save	500	0	500
Recovery and Renewal Reserve	0	778	778
Renewable Energy	0	119	119
Enterprise Zone	0	4	4
Total Earmarked Reserves	22,980	(3,547)	19,433
Unallocated Balances	10,246	4,175	14,421
Total General Fund Reserves	33,226	628	33,854

Description of Earmarked Reserves:

Neighbourhood Planning – this is funding from central government to support the production of local Neighbourhood Plans.

Planning Appeals – This reserve was created as a contingency for potential costs of future planning appeals. This is in addition to the provision held for costs relating to known appeals.

Trading Accounts – these are ring-fenced surpluses from trading areas within the Council that by statute can only be used within these areas.

Civil Parking Enforcement – These are ring-fenced surpluses from the onstreet parking for re-investment within parking services.

Future Capital Expenditure – These are funds set-aside from balances for use on future capital projects.

Future Funding Pressures – This reserve holds funds set aside as contingency for future local government funding reforms.

Housing Prevention & Temporary Accommodation – These are government grants will be used to fund homelessness prevention initiatives and a sinking fund for temporary accommodation repairs and maintenance.

Business Rates Earmarked Balances – These are locally retained rates from the Kent Business Rates Pool and 2018/19 100% Pilot, which will be used to support local initiatives including the delivery of economic development activity.

Funding for Future Collection Fund Deficits – These are sums that were set aside from government funding received during Covid-19 pandemic. It was anticipated that the pandemic would have a negative effect on the Collection Fund so this reserve will help smooth that impact.

Commercial Risk & Invest to Save – These amounts were previously set aside within the general fund balance, but not formally earmarked. The Commercial Risk reserve is an allowance intended to preserve the general fund balance in the event of major contract failure. The Invest to Save reserve is a fund to enable projects which will unlock future revenue savings to be delivered. It is intended that the savings would first be used to replenish the reserve before being recognised within the budget.

Recovery & Renewal Reserve – These are sums aside from Government funding to support various initiatives across the Borough in recovering from the after-effects of the Covid-19 pandemic.

Renewable Energy – This reserve uses funding from retained Business Rates to support the development of renewable energy sources to support the Council's climate change initiatives.

Enterprise Zone - This reserve uses funding from retained Business Rates to support the development of the Kent Medical Campus.

Accounting Policy - Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When

expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

The Council has created a series of Earmarked Reserves to manage more effectively the resources set aside for specific activities.

Certain reserves are kept to manage the accounting process for non-current assets, retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

8 - MATERIAL ITEMS OF INCOME & EXPENSE

There are no material items of income and expenditure that are not detailed in the notes below. Materiality is defined as 2% of prior gross year expenditure for the Council, which is the figure used for the purposes of the annual external audit of the Statement of Accounts. That figure is £1.7m for 2020/21.

9 - OTHER OPERATING EXPENDITURE

These are corporate items of income and expenditure that cannot reasonably be allocated or apportioned to services.

	2020/21 £000	2021/22 £000
Parish Council precepts Levies	2,130 120	2,240 127
(Gains)/losses on the disposal of non-current		
assets	(3,656)	668
	(1,405)	3,035

The variance on (Gains)/losses on the disposal of non-current assets relates to the disposal of properties as part of the housing developments at Brunswick Street and Union Street, which took place in 2020/21.

10 - FINANCING AND INVESTMENT INCOME & EXPENDITURE

These are corporate items of income and expenditure arising from the Council's involvement in financial instruments and similar transactions involving interest and investment properties.

	2020/21 £000	2021/22 £000
Interest payable and similar charges Net Interest on the Net Defined Benefit Liability	152	126
	1,687	1,757
Interest receivable and similar income Income & Expenditure in relation to investment properties and changes in their fair value	(36)	(72)
	1,946	(4,900)
	3,749	(3,089)

11 - TAXATION & NON-SPECIFIC GRANT INCOMES

This note consolidates all the grants and contributions receivable, including those that cannot be identified to particular service expenditure.

Credited to Taxation & Non Specific		
Grant Income	2020/21 £000	2021/22 £000
	£000	£000
Council tax income	18,994	20,540
Income from Retained Business Rates	24,160	24,908
Tariff Payable	(19,339)	(19,339)
Levy Payable	(70)	0
Covid-19 Grants	4,846	0
Non-ringfenced Government Grants	4,472	3,995
Total	33,064	30,105
Credited to Services		
Housing Benefit Subsidy	36,898	33,423
Non-Domestic Rates - Cost of Collection	205	222
Council Tax Administration	146	160
Covid-19 Grants	5,736	5,645
Other Grants	1,817	4,326
Total	44,802	43,776

In 2020/21 and 2021/22 Income from Retained Business Rates has benefited from the Council's participation in the Kent Business Rates Pool, as explained in note 2 to the Collection Fund Statement.

Accounting Policy – Government Grants & Contributions

Whether paid on account, by instalments or in arrears, government grants, third party contributions and donations are recognised as due to the Council when there is a reasonable assurance that:

- The Council will comply with the conditions attached to the payments, and
- The grants and contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income & Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or condition are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried on the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation & Non-Specific Grant

Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income & Expenditure Statement.

Where capital grants are credited to the Comprehensive Income & Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Receipts in Advance Reserve. Where it has been applied, it is posted to the Capital Adjustment Account.

12 - MEMBERS' ALLOWANCES

The amount of Members Allowances paid during 2021/22 totalled £367,153 (£359,191 in 2020/21).

The Council also produces a statement, in accordance with provision 1021 – 15(3) of the Local Authorities (Members Allowance) (England) Regulations 2003, giving details of allowances paid to Members for the year. This can be viewed on the Council's website:

http://www.maidstone.gov.uk/home/primary-services/council-and-democracy/additional-areas/budgets-and-spending/tier-3/councillor-allowances#councillor allowances

13 - OFFICERS REMUNERATION

The remuneration paid to the Council's senior employees is as follows:

2021/22	Salary (Including Fees)	Other Payments, Allowances & Benefits in Kind	Total Remuneration excluding Pension Contributions	Pension Contributions	Total Remuneration including Pension Contributions
	£000	£000	£000	£000	£000
Chief Executive Director of Finance & Business	152	3	155	26	181
Improvement	106	1	107	19	126
Director of Regeneration & Place	106	1	107	19	125
Director of Mid-Kent Services	89	1	90	15	105

Senior Officers are defined as those who sit on the Corporate Leadership Team. There are no other officers who report directly to the Chief Executive and receive more than £50,000 remuneration for the year.

The Chief Executive receives additional remuneration to reflect her role as the Council's Returning Officer during elections.

The Director of Mid-Kent Services is jointly funded with Swale and Tunbridge Wells Borough Councils, each making equal contributions. Therefore, Maidstone's share of the salary is one-third of the value above (£36,000).

The Monitoring Officer (Head of Mid Kent Legal Services) also sits on the Corporate Leadership Team but is paid by Swale Borough Council. Details of her remuneration are therefore within their accounts.

The Council's other employees receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) were paid the following amounts:

Remuneration Banding	2020/21 No. of Employees	2021/22 No. of Employees
£50,000 - £54,999	5	7
£55,000 - £59,999	6	5
£60,000 - £64,999	5	8
£65,000 - £69,999	3	1
£70,000 - £74,999	2	2
£75,000 - £79,999	2	1
£80,000 - £84,999	2	1
£85,000 - £89,999	1	2
£90,000 - £94,999	0	0

Exit Packages

The number of exit packages with total cost per band and the total cost of the compulsory and other redundancies are set out in the table below:

Exit Package Cost Band (including special payments)	Number of compulsory redundancies		Number departure		Total numl packages ba	by cost	Total cos packages ba	in each
	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22	2020/21	2021/22
							£000	£000
£0 - £20,000	1	0	2	0	3	0	16	0
£20,001 - £40,000	0	0	0	0	0	0	0	0
£40,001 - £80,000	0	0	0	0	0	0	0	0
£80,001 - £100,000	0	0	0	0	0	0	0	0
£100,001 - £150,000	0	0	0	0	0	0	0	0
Total	1	0	2	0	3	0	16	0

14 - EXTERNAL AUDIT COSTS

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and to non-audit services provided by the Council's external auditors, Grant Thornton UK LLP.

	2020/21 £000	2021/22 £000
Fees payable with regard to external audit services carried out by the appointed auditor for the year	62	42
Fees payable for the certification of grant claims and returns during the year	44	22
Total	106	64

15 - CAPITAL GRANTS RECEIPTS IN ADVANCE

The Council has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the donor organisation. The balances at the year-end are as follows:

	2020/21 £000	2021/22 £000
Balance at start of year:	5,655	6,644
Grants Received	6,885	5,939
Funding used for capital expenditure	(5,896)	(4,833)
Balance at end of year:	6,644	7,751

On the Balance Sheet the year-end figure is split between short-term (expected to be used by 31^{st} March 2023) £4.775m and long-term (expected to be used after 1^{st} April 2024) £2.974m.

The majority of the balance (£5.0m) relates to Section 106 monies held by the Council for future use. There is also a further £2.3m held for disabled facilities grants which is an ongoing area of work for the Council.

Capital Grants Unapplied – This is for grants and contributions received where conditions have been met but expenditure has yet to be incurred. The amount of grants and contributions held that meet this criteria is not material and therefore they are all accounted for as part of Capital Grants Received in Advance.

16 - RELATED PARTIES

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central government has effective control over the general operations of the Council- it is responsible for providing the statutory framework within which the Council operates, and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in Note 1 – the Expenditure & Funding Analysis.

Members and Senior Officers

Members of the Council have direct control over the Council's financial and operating policies. The total of Members' Allowances paid in 2021/22 is shown in Note 12.

All Members and Senior Officers were required to complete a declaration of interests that included details of any finance-related transactions with the Council. There were no declarations of significance.

The following officers are Directors of Maidstone Property Holdings Limited, which is a wholly owned subsidiary of the Council.

- Director of Regeneration and Place
- Director of Mid-Kent Services
- Head of Housing and Community Services
- Principal Lawyer Commercial

The Balance Sheet as at 31st March 2022, reflects £359,129 (2020/21, £138,340) which is payable from Maidstone Property Holdings Limited to Maidstone Borough Council, relating to income and expenditure for the 2021/22 financial year.

Opening balances reflect adjustments to the Property, Plant and Equipment and Inventory lines following identification of a prior period error. Full details are disclosed within note 3.

Community Assets have all previously been revalued at £1 each, in accordance with the accounting policy set out below. The Code of Practice on Local Authority Accounting requires Community Assets to be recorded on the Balance Sheet at Historic Cost. Due to the age and nature of many of the Community Assets it is not possible to ascertain an accurate historical cost, but expenditure incurred is now added to the value of the asset. Any expenditure on Community Assets was previously written off as Revenue Expenditure charged to Capital under Statute.

The Code of Practice also requires that material classes of assets within Property, Plant & Equipment are now valued together and disclosed separately within the Statement, and this analysis is shown in the table on the previous page.

Capital Commitments

As at 31st March 2022 the Council had the following capital commitments:

Project	£000
Springfield Mill Block 6	731
Mote Park Café/Visitor Centre	1,309
Gypsy Site Refurbishment Works	1,497
	3,537

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant & Equipment required to be measured at current value is revalued at least every 5 years. All valuations were carried out externally by Harrisons Chartered Surveyors. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of RICS. The latest revaluations were carried out as at 31st March 2022 in accordance with the requirements of the Code of Practice and are considered to be materially accurate at the Balance Sheet date.

The table also shows the historic cost values of the various asset classes, which were established at 1^{st} April 2007 when the current capital accounting requirements came into force.

	B Infrastruct O ure Assets	& Community O Assets	B Land & O Buildings	Machinery 8 & 6 Equipment	o O Vehicles	D IT & Office O Equipment	Under OConstructio	000 3 Total

Accounting Policy - Property, Plant & Equipment

Assets that have physical substance and are held for use in the provision of services or for administrative purposes on a continuing basis.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant & Equipment is capitalised on an accruals basis in the accounts, provided that the asset value is over £10,000 and yields benefits to the Council and the services it provides, for a period of more than one year. This excludes expenditure on routine repairs and maintenance of non-current assets which is charged directly to service revenue accounts.

Measurement

Assets are initially measured at cost, comprising:

- The purchase price
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in manner intended by management.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, Community Assets and Assets Under Construction -Depreciated Historical Cost
- All other assets current value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at current value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every 5 years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. (Exceptionally, gains might be credited to the Comprehensive Income & Expenditure Statement where they arise from the reversal of a loss previously charged to a service.)

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income & Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1^{st} April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income & Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income & Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss has not been recognised. `

Depreciation

Depreciation is provided for on all Property, Plant & Equipment assets by the systematic allocation of depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Buildings straight-line allocation over the useful life of the property as estimated by a suitably qualified officer. The useful lives range from 4 to 50 years.
- Vehicles, Plant, Furniture & Equipment straight-line allocation over the useful life of the asset as estimated by a suitably qualified officer.
- Infrastructure straight-line allocation over 20 years.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and depreciation that would have been charged based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

18 - INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the financing and investment income and expenditure line in the comprehensive income and expenditure statement:

	2020/21 £000	2021/22 £000
Rental income from investment property	(2,961)	(2,380)
Direct operating expenses arising from investment property	994	443
Net gain/(loss)	(1,967)	(1,937)

The following table summarises the movement in the fair value of investment properties over the year:

	2020/21 £000	2021/22 £000
Balance at start of the year	23,270	25,697
Additions	2,027	3,666
Transfers		8,043
Net gains/losses from fair value adjustments	400	3,362
Balance at end of year	25,697	40,768

In estimating the fair value of the authority's investment properties, the highest and best use of the properties is their current use.

The fair value for the council's investment property portfolio has been based on the market approach using current market conditions and recent sales or lettings evidence and other relevant information for similar assets in Maidstone Borough, or other suitably comparable locations. Where appropriate, adjustments have been made to the comparable evidence to relate these directly to the subject properties. Market conditions are such that similar properties are actively sold or let and the level of observable inputs are significant, leading to the properties being categorised at Level 2 in the fair value hierarchy.

There has been no change in the valuation techniques used during the year for investment properties.

Accounting Policy – Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the highest and best use value of the asset from the market participant's perspective. Investment properties are not depreciated and an annual valuation programme ensures that they are held at highest and best use value at the Balance Sheet date. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the

Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

Accounting Policy – Fair Value Measurement

The Council measures some of its assets and liabilities at fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council uses external valuers to provide a valuation of its assets and liabilities in line with the highest and best use definition within the accounting standard. The highest and best use of the asset or liability being valued is considered from the perspective of a market participant.

Inputs to the valuation techniques in respect of the Council's fair value measurement of its assets and liabilities are categorised within the fair value hierarchy as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – unobservable inputs for the asset or liability.

19 - HERITAGE ASSETS: RECONCILIATION OF THE CARRYING VALUE HELD BY THE COUNCIL

Cost or Valuation	Museum Exhibits £000	War Memorials £000	Statues & Sculptures £000	Other Items £000	Total Assets £000
1st April 2021 Additions Disposals	9,090	480	515	348	10,433 0 0
31st March 2022	9,090	480	515	348	10,433
1st April 2020 Additions Disposals	9,090	480	515	308 40	10,393 40 0
31st March 2021	9,090	480	515	348	10,433

Museum Exhibits

The exhibits are held in two main locations, the Maidstone Museum & Bentlif Art Gallery, and the Carriage Museum. Further information on the museums and their collections can be seen on their dedicated website:

https://museum.maidstone.gov.uk/

The total of £9.090m represents those items that have formally been valued as at 1^{st} April 2011 for insurance purposes by a number of reputable auction houses. The value of the total collection is likely to be far higher, and is valued for insurance purposes at £17.0m (which includes items on loan to the Council, and those held in Trust at the Museum), but it is considered that it would not be cost-effective or of any significant benefit to formally value the entire collection. The value is reviewed on an annual basis for insurance purposes.

War Memorials

The Council is responsible for two war memorials, one in the Broadway and the other in Brenchley Gardens. A local stone mason has provided a replacement value for the two memorials. Upkeep and maintenance of the memorials is the responsibility of the Council's Property Services section.

Statues and Sculptures

There are a number of statues and sculptures throughout the borough that the Council are responsible for. These are in a number of locations, and have been valued at their purchase cost, where this is known, although none of them individually have a significant value.

Other Items

This relates to three items, the civic regalia used by the Mayor, the 'Elemental' art installation on the bridge across the River Medway, and a new piece of public art (a metal sculpture of a dinosaur) installed outside Maidstone East station as part of the recent public realm project. The civic regalia have been valued by a local jeweller for insurance purposes, and the art installation and the new installation have been valued at purchase cost.

Listed Buildings and Other Heritage Assets

The Old College complex, comprising the Gateway, the Master's Tower and the Quarterdeck has been classified as a heritage asset. However due to the age and nature of the buildings it is not possible to ascertain an accurate valuation.

In addition the Council owns a number of other assets. These have not been valued as it would not be cost-effective in terms of time and financial resources to do so. These include the balance of the museum exhibits referenced earlier in this note.

Accounting Policy – Heritage Assets

Tangible Heritage Assets (described in this summary of significant accounting policies as heritage assets)

The Council's Heritage Assets are held principally for their contribution to knowledge and/or culture. Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses and impairments) in accordance with the Council's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to Heritage Assets, and the valuation methods applied are as follows:

- Replacement Cost
- Purchase Cost
- Insurance Valuation

Where it is considered impractical (in terms of cost and/or benefit) to obtain a valuation there is no requirement to do so, but any assets that are treated in this way must be disclosed in the Heritage Assets note.

20 - FINANCIAL INSTRUMENTS

Financial Instruments - Classifications

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-exchange transactions, such as those relating to taxes and government grants, do not give rise to financial instruments.

Financial Liabilities:

Financial Liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Interest is charged to the Financing and Investment Income & Expenditure line in the Comprehensive Income & Expenditure Statement.

Financial Assets:

The Council regularly holds the following financial instruments at amortised cost:

- Deposits with financial institutions and local authorities
- Money Market Funds; and
- Service Loans.

The Council also maintains a continuously 'rolling' portfolio of Debtors (also held at amortised cost).

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

The following categories of financial instrument are carried in the Balance Sheet:

	Long-	term	Short-	Term
	31st March 2021 £000	31st March 2022 £000	31st March 2021 £000	31st March 2022 £000
Treasury Investments				
Financial assets at amortised cost	0	0	16,160	38,750
Debtors				
Financial assets at amortised cost	37	25	10,589	11,598
Loans Financial liabilities at amortised cost	0	5,000	11,000	4,000
Creditors				
Financial liabilities at amortised cost	0	0	16,160	22,624
Other Long Term Liabilities Finance Lease Liabilities at amortised				
cost	1,483	905	537	567

On the face of the Balance Sheet, Financial Assets are held at Amortised Cost where the business model for the Council is to collect contractual cash flows.

Investments of £38.75m are held in short dated instruments, call accounts, notice accounts, money market funds and short dated fixed term deposits. The Council has no long-term treasury funds invested at the year end. Debtors includes two service loans to third parties, Kent Savers £25k Long Term and One Maidstone £24k (Business Improvement District Levy) short-term. The Council has no other long-term debtors, and the fair value of trade and other receivables is taken to be the invoiced or billed amount.

The Council's treasury management loan balance of £9m is made up of £4m short dated loans and £5m long term loans. Long term loans are 50 year maturity loans with the Public Works Loans Board (PWLB).

Other Long-Term Liabilities relates to the services concession arrangement between the Council and Serco, the managing contractor of Maidstone Leisure Centre. Details of this arrangement are discussed within 28 – Private Finance Initiatives & Similar Contracts.

The current financial liabilities are all due to be settled within one year.

Income & Expense

	Long-	term	Short-Term		
	31st March 2021 £000	31st March 2022 £000	31st March 2021 £000	31st March 2022 £000	
Income:					
Financial assets at amortised cost	0	0	30	72	
Other Interest	0	0	6	0	
Total	0	0	36	72	
Expenditure:					
Financial liabilities at amortised cost	0	0	38	30	
Total	0	0	38	30	

Expected Credit Loss Model

The Council considers the potential for credit losses on financial assets held at amortised cost either on a 12-month basis, where risk has not increased significantly or remains low, or lifetime basis, where risk has increased significantly (Simplified model - Debtors only). An exception is:

- Deposits with local authorities credit losses are not recognised for deposits held with central Government or other local authorities due to statutory provisions (the Local Government Act 2003), which prevent default.
- Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default (triggering a credit loss) on their obligations.
- With regard to Debtors, an Impairment Allowance for Bad Debts (IABD) is applied annually based on a set of assumptions on the collectability of external debts based on past experience and future expectations.

Inputs to the measurement techniques in respect of the Council's fair value measurement of its assets and liabilities are categorised within the fair value hierarchy as follows:

- Level 1 fair value is only derived from quoted prices in active markets for identical assets or liabilities
- Level 2 fair value is calculated from inputs other than those quoted prices, that are observable for the asset or liability
- Level 3 fair value is determined using unobservable inputs, e.g. nonmarket data such as cash flow forecasts or estimated creditworthiness

All valuations on Council's financial assets and liabilities uses level 2.

The accounts are required to show the fair value of the financial assets held by the Council. Fair value is defined as the amount for which an asset could be exchanged assuming that the transaction was negotiated between parties knowledgeable about the market in which they are dealing and willing to buy/sell at an appropriate price, with no other motive in their negotiations other than to secure a fair price.

The fair value of investments is shown in the table below with the level in the fair value hierarchy.

	31st Mar	ch 2021	Fair Value	31st Marc	ch 2022
	Book Value £000	Fair Value £000	Level	Book Value £000	Fair Value £000
	£000	£000		£000	£000
Financial Assets					
Long Term Investments	0	0	2	0	0
Short Term Investments					
(less than 1 yr)	16,177	16,177	2	38,791	38,783
Financial Liabilities					
Long Term Loans	0	0	2	5,025	5,321
Short Term Loans (less than					
1 yr)	11,003	11,004	2	4,002	3,992

The fair value of liabilities is greater than the carrying amount because the Council's portfolio of loans includes fixed rates loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional future loss (based on economic conditions at 31 March 2021) arising from a commitment to pay interest to lenders above current market rates.

The fair value of PWLB loan of £5.321m measures the economic effect of terms agreed with the PWLB compared with estimates of the terms that would be offered for market transactions undertaken at the Balance Sheet date. The difference between the carrying amount and the fair value measures the additional interest that the authority will pay over the remaining terms of the loan under the agreement with the PWLB, against what would be paid if the loan was at the current PWLB new loan rate.

The fair value of of assets is less than the carrying amount due to the credit risk of a default from institutions with fixed term deposits, however as these investments are very short term, this amount is not material.

21 - NATURE & EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Council provides written principles for overall risk management, as well as written policies covering specific areas such as interest rate risk, credit risk and the investment of surplus cash. These are set out in the Council's Treasury Management Practices, which are a requirement of CIPFA's Treasury Management Code of Practice, which has been adopted by the Council. Treasury Management indicators have also been set to control key financial instruments risks in accordance with CIPFA's Prudential Code. The Treasury Management Practices can also be viewed on the Council's website.

Treasury Management Strategy 2021/22

A summary of the main points of the strategy is as follows:

- to utilise cash balances rather than loan debt to finance the capital programme in the short term, due to low investment returns and high counterparty risk in the current economic climate;
- to further diversify its portfolio, as far as is operationally feasible, ensuring that a combination of secured and unsecured investments are considered. Greater use of Local Authority investments will be sought due to the high security of the borrower which enables investment over a longer period where funds are not required immediately.
- Increase previous counterparty limits due to the increased grant funding from Central Government in relation to COVID19 which were being held until grants were paid to individuals and businesses.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers. The Council manages credit risk by ensuring that investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, the UK government, other local authorities, and organisations without credit ratings upon which the Council has received independent investment advice.

There are no credit limits set on the Council's customers, as the amounts involved are not considered sufficiently material to warrant the setting of such limits.

As at 31st March 2022 investments were held with the following instituti

UK Government	0	0
Total	16,160	38,750

Liquidity Risk

Liquidity risk arises from the Council having insufficient resources to meet its ongoing commitments. The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowings from the money market, other local authorities and the Public Works Loan Board. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. A borrowing provision of £4m exists for short term cash flow purposes. However, provision has also been made with the current Treasury Management Strategy to have an authorised debt limit of £66.68m to fund on-going schemes in the event of projected capital receipts not being realised.

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments to provide stability of maturities and returns in relation to the longer term cash flow needs.

Market Risk - Interest Rate Risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- Borrowings at fixed rates the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and

• Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Authority has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together Authority's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

The risk exposure is summarised in the table below:

	31st March 2021 £000	31st March 2022 £000
Investments Notice accounts/Money market funds Fixed term deposits	13,160 3,000 16,160	27,750 11,000 38,750
Borrowings Short term loans with local authorities Long Term Borrowings with PWLB	11,000 0 11,000	4,000 5,000 9,000

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

22 - INVENTORIES

	Property or constru sa	ucted for	Other in iter	-	To	tal
	2020/21 £000	2021/22 £000	2020/21 £000	2021/22 £000	2020/21 £000	2021/22 £000
Balance outstanding at start of year	7,076	4,979	166	174	7,242	5,153
Purchases Recognised as an	2,001		361	290	2,362	290
expense in the year	(4,096)	(4,979)	(353)	(319)	(4,449) 0	(5,298) 0
Balance outstanding at						
year-end	4,979	0	174	146	5,153	146

23 - SHORT AND LONG TERM DEBTORS

Short Term Debtors

	2020/21 £000	2021/22 £000
Central government bodies Other local authorities Other entities and individuals	1,675 7,843 14,845	431 1,546 15,631
Total	24,362	17,607

Allowance for Bad Debts

	2020/21 £000	2021/22 £000
Excess Charges Impairment Allowance Sundry Bad Debts Impairment Allowance	1,184 5,265	676 4,764
Total	6,449	5,441

The figure on the balance sheet represents Debtors less Provision for Bad Debts, which totals £18.151m.

Other entities and individuals within Short Term Debtors are broken down as follows:

	2020/21	2021/22
	£000	£000
Council Tax payers	1,534	1,790
Business Rate payers	1,938	1,684
Capital debtors	1,022	178
General debtors	8,119	10,321
Payments in Advance	802	582
Other miscellaneous amounts	1,430	1,075
Total	14,845	15,631

Long Term Debtors

Part of the debtors balance with other Local Authorities (£3.2m) has been classified as a long term debtor for 2021/22, due to the requirement to spread collection fund deficits with preceptors over three years. This means that two thirds of the 'exceptional' balance calculated for spreading purposes will not be recovered from preceptors until 2022/23 and 2023/24.

24 - CASH & CASH EQUIVALENTS

The balance of Cash & Cash Equivalents is made up of the following elements:

	2020/21 £000	2021/22 £000
Cash held by the Council Bank current accounts Short-term deposits	3 (3,380) 14,160	3 (<mark>101)</mark> 33,750
Total	10,783	33,652

Accounting Policy – Cash & Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. Currently, due to the requirement of funding for its liabilities, £33.75m of Council investments are classified as cash and cash equivalents.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

25 - CREDITORS

Short Term

	2020/21 £000	2021/22 £000
Central government bodies Other local authorities Other entities and individuals	13,171 4,878 23,453	29,927 6,721 30,547
Total	41,502	67,196

The movement in the balances for Central Government is a reflection of additional business grants and increase in income in advance.

The movement in other entities and individuals reflects an increase in Section 106 monies received from developers that will be passed onto other organisations, primarily Kent County Council and the NHS.

Other entities and individuals are broken down as follows:

	2020/21 £000	2021/22 £000
General creditors Capital creditors Council tax payers	4,200 1,416 0	5,103 1,342 251
Business Rate payers Receipts in advance Deposits Retentions	0 7,293 9,978 566	1,713 5,994 15,594 557
Total	23,453	30,554

26 - PROVISIONS

Provision for Appeals

	2020/21 £000	2021/22 £000
Business Rates Appeals - Current Business Rates Appeals - Backdated Planning Appeals Other Provisions	1,261 1,283 261 358	1,090 1,801 261 215
Total	3,163	3,367

The Council is required to account for the effect of Business Rates appeals which were previously borne by the national pool. The balance represents the Council's

40% share of the estimated current and backdated appeals.

A provision has also been established to allow for costs that could arise from potential planning appeals.

The provision is split between long-term and short-term liabilities on the Balance Sheet.

Accounting Policy – Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each year – where it becomes less probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant area.

Where some or all of the payment required to settle a provision is expected to be recovered from another party, this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

27 - TRUST FUNDS

The Council is required to set out details of the nature and amount of trust funds where it acts as sole trustee, the only one of which is the Cobtree Manor Estate. The object of this trust is to hold Cobtree Manor and Cobtree Manor Estate for the benefit of the inhabitants of Maidstone and other members of the general public.

The assets and liabilities of the Trust as at 31st March 2022 are summarised in the following table. The figures for 2020/21 are the audited figures, which differ from those in the 2021/22 Statement of Accounts, as the audit took place after that was published.

Gross expenditure in 2021/22 totalled £349,785 (£447,662 in 2020/21). Gross income in 2021/22 totalled £488,028 (£431,008 in 2020/21).

The accounts of the Trust are subject to a separate external audit.

	2020/21 (Updated) £000	2021/22 £000
Fixed Assets: Tangible Assets Investment Property Investments	2,553 1,000 825 4,379	2,553 1,000 885 4,438
Current Assets	500	500
Current Liabilities	304	304
Creditors: Amounts falling due after more than one year	135	135
Total assets less total liabilities	4,440	4,499
Total Charitable Funds	4,440	4,499

28 - PRIVATE FINANCE INITIATIVES & SIMILAR CONTRACTS

The Council has no Private Finance Initiative Schemes, but the following scheme is a similar contract as it is defined as a service concession arrangement.

The Council entered into an agreement during 2009/10 with Serco, the managing contractor of Maidstone Leisure Centre, to undertake a major refurbishment of the centre. Under the terms of the agreement Serco have initially funded the cost of the works through a loan, and the Council are then repaying this loan over a 15 year term, by equal monthly instalments. The principal element of this loan is reflected on the Balance Sheet and will be written down annually by the amount of principal repaid. Interest paid on the loan is charged to the Comprehensive Income & Expenditure Statement.

The annual principal repayments are credited to the Comprehensive Income & Expenditure Statement, and then reversed out of the Movement in Reserves Statement to the Capital Adjustment Account to reflect the fact that this is a repayment of debt, as this arrangement is classed as borrowing under the terms of the CIPFA Prudential Code for Capital.

Payments

	2020/21 £000	2021/22 £000
Balance outstanding at start of year	2,537	2,020
Repayment of principal	(517)	(537)
Balance outstanding at end of year	2,020	1,482

These figures are shown on the face of the Balance Sheet as Deferred Liabilities and are split between the Short Term and Long Term elements.

Accounting Policy – Deferred Liability

Deferred Liabilities are recognised under the terms of IFRIC 12 (IFRS Interpretations Committee) and the arrangement is recognised as a service concession and accounted for accordingly. This generally involves the grantor (the Council) conveying to the operator (Serco) for the period of the concession the right to provide services that give the public access to major economic and social facilities, in this instance Maidstone Leisure Centre.

Accounting Policy - Minimum Revenue Provision

The Minimum Revenue Provision (MRP) is a statutory charge relating to the repayment of debt. It represents the Council's underlying need to borrow for capital expenditure. There is a general duty upon the Council to make an amount of MRP which it considers 'prudent'.

29 - CAPITAL RECEIPTS RESERVE

This reserve contains the proceeds from the sale of non-current assets, which are used to fund capital expenditure, and forms part of the Usable Reserves section of the Movement in Reserves Statement. This section also includes Earmarked Reserves and the General Fund Balance.

Balance at 1st April	31st March 2021 £000 549	31st March 2022 £000 459
Capital Receipts Received	1,968	4,329
Capital Receipts Applied	(2,058)	(4,500)
Balance at 31st March	459	288

30 - UNUSABLE RESERVES

	31st March 2021 £000	31st March 2022 £000
Revaluation Reserve	40,883	46,251
Capital Adjustment Account	74,906	74,974
Deferred Capital Receipts Reserve	7	7
Pensions Reserve	(89,783)	(85,362)
Collection Fund Adjustment Account	(13,036)	(5,640)
Accumulated Absences Account	(172)	(164)
Total Unusable Reserves	12,803	30,065

a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant & Equipment. The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only the revaluation gains accumulated since 1st April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	31st March 2021 £000	31st March 2022 £000
Balance at 1st April	44,248	40,882
Upward revaluation of assets Downward revaluation of assets Difference between fair value depreciation and historical cost depreciation	(3,512) 146	7,417 (2,049)
Balance at 31st March	40,882	46,250

b) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income & Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert

fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant & Equipment before 1st April 2007, the date that the Revaluation Reserve was created to hold such gains.

	31st March 2021 £000	31st March 2022 £000
Balance at 1st April Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income & Expenditure Statement:	74,197	74,906

Movements in the market value of Investment Properties debited or credited to the Comprehensive Income & Expenditure Statement	400	3,362
Balance at 31st March	74,906	74,987

c) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income & Expenditure Statement as benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources that the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2020/21 £000	2021/22 £000
Opening balance at 1 April Remeasurements of the net defined liability Reversal of items relating to retirement benefits debited or credited to the Surplus or	73,677 13,225	89,783 (9,860)
Deficit on the Provision of Services in the Comprehensive Income and Expenditure	6,690	9,274
Statement Employer's pensions contributions	(3,809)	(3,835)
Closing balance at 31 March	89,783	85,362

d) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	31st March 2021 £000	31st March 2022 £000
Balance at 1st April Amount by which council tax and non-domestic rates income credited to the Comprehensive Income & Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with	26	13,036
statutory requirements - Council Tax - Non-domestic Rates	(<mark>131)</mark> 13,141	(671) (6,726)
Balance at 31st March	13,036	5,640

31 - CAPITAL EXPENDITURE & CAPITAL FUNDING

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it.

	2020/21 £000	2021/22 £000
Opening Capital Finance Requirement	40,527	53,576
Capital Investment		
Property, Plant & Equipment Non-enhancing capital expenditure Investment Properties Intangible Assets Revenue Expenditure Funded from Capital Under Statute	23,494 79 2,027 285 845 26,730	20 1,436 454 2,383
Sources of Finance		
Capital receipts Government grants & other contributions New Homes Bonus Other Revenue Contributions	(5,822) (4,472) (1,329)	(4,500) (4,024) (3,856) (2,113) (14,494)
Increase in Capital Financing Requirement	13,049	12,454
Closing Capital Finance Requirement	53,576	66,030

Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. In

this instance the funding will come from a combination of internal borrowing using existing cash balances and external funding, in accordance with the agreed Treasury Management Strategy for 2021/22.

Accounting Policy – Revenue Expenditure Funded from Capital Under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of non-current assets has been charged as expenditure to the relevant service revenue account in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer to the Capital Adjustment Account then reverses out the amounts charged in the Movement in Reserves Statement so there is no impact on the level of council tax.

32 - DEFINED BENEFIT PENSION SCHEMES

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that need to be disclosed at the time the employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme (LGPS), administered locally by Kent County Council – this is a funded defined benefit Career Average Revalued Earnings (CARE) pension scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.

Due to the adoption of the 2011 amendments to the International Accounting Standard (IAS) 19 Employee Benefits, there are now classes of components of defined benefit cost to be included in the financial statements, i.e. net interest on the net defined benefit liability and re-measurements of the net defined benefit liability.

Transactions Relating to Post-employment Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income & Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	2020/21 £000	2021/22 £000
Comprehensive Income & Expenditure		
Statement (CIES) Cost of Services:

	2,881	5,439

Curtailments

No employees were permitted to take unreduced early retirement that they would not otherwise have been entitled to over the past year.

Settlements

There were no liabilities settled at a cost materially different to the accounting reserve as a result of members transferring to / from another employer over the year (2020/21 £nil).

Pension Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit plans is as follows:

	2020/21 £000	2021/22 £000
Present value of funded obligation	221,430	218,989
Fair value of plan assets Contributions by scheme participants	(133,210) 88,220	(135,059) 83,930

Total	133,210	100%	135,059	100%

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent upon assumptions about mortality rates, salary levels, etc.

The scheme has been assessed by Barnett Waddingham, an independent firm of actuaries. Estimates for the Kent County Council Pension Fund are based on the full valuation of the scheme as at 31st March 2019.

The principal assumptions used by the actuary have been:

	2020/21	2021/22
Long-term expected rate of return of		
assets in the scheme		
Mortality Assumptions		
Longevity at 65 for current pensioners		
- Men	21.6	21.6
- Women	23.6	23.7
Longevity at 65 for future pensioners		
- Men	22.9	23.0
- Women	25.1	25.1
Financial Assumptions		
RPI increases	3.20%	N/A
CPI increases	2.80%	3.20%
Salary increases	3.80%	4.20%
Pension increases	2.80%	3.20%
Discount Rate	2.00%	2.60%

Sensitivity Analysis

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases similarly for men and women. In practice, this is unlikely to occur. Changes in some of the assumptions may also be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumption used in preparing the sensitivity analysis below did not change from those used in the previous period.

Sensitivity Analysis	£000	£000	£000
Adjustment to discount rate	+0.1%	0.0%	-0.1%
- Present Value of Total Obligation	216,144	220,421	224,787
- Projected Service Cost	6,576	6,817	7,066
Adjustment to long-term salary increase	+0.1%	0.0%	-0.1%
- Present Value of Total Obligation	220,901	220,421	219,946
- Projected Service Cost	6,821	6,817	6,813
Adjustment to pension increases and deferred			
revaluation	+0.1%	0.0%	-0.1%
- Present Value of Total Obligation	224,277	220,421	216,640
- Projected Service Cost	7,064	6,817	6,577
Adjustment to life expectancy assumptions	+1 Year	None	-1 Year
- Present Value of Total Obligation	230,396	220,421	210,910
- Projected Service Cost	7,094	6,817	6,550

Scheme History

	2017/18 £000	2018/19 £000	2019/20 £000	2020/21 £000	2021/22 £000
Present value of defined benefit obligation in the Local Government Pension Scheme	(182,032)	(183,242)	(175,391)	(221,430)	(218,989)
Fair value of assets in the Local Government Pension Scheme	106,524	113,698	103,305	133,210	135,059
Present value of unfunded obligation	(2,110)	(1,937)	(1,591)	(1,563)	(1,432)
Surplus/(Deficit) in the scheme	(77,618)	(71,481)	(73,677)	(89,783)	(85,362)

The liabilities show the underlying commitments that the Council has in the long run to pay post-employment (retirement) benefits. The total liability of

£85.362m has a substantial impact on the net worth of the Council as recorded in the Balance Sheet. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy. The deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary. The total contributions expected to be made to the Local Government Pension Scheme by the Council in the year to 31st March 2023 are £3.727m.

Accounting Policy – Employee Benefits

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include benefits such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any type of leave e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Post-Employment Benefits

Employees of the Council are members of the Local Government Pensions Scheme, administered by Kent County Council (KCC). The Scheme is accounted for as a defined benefits scheme:

- The liabilities of the KCC pension scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate specified by the actuaries (based on the indicative rate of return on high quality corporate bonds.)
- The assets of the KCC pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - Quoted securities current bid price
 - Unquoted securities professional estimate
 - o Unitised securities current bid price

- Property market value
- The change in net pensions liability is analysed into the following components:
 - Service cost which comprises:
 - Current service cost the increase in liabilities as a result of years of service earned in the current year allocated in the Comprehensive Income & Expenditure Statement to the services for which the employees worked.
 - Past service cost the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement.
 - Net interest on the net defined benefit liability, i.e. net interest expense for the Council the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing & Investment Income & Expenditure line of the Comprehensive Income & Expenditure Statement.
 - Re-measurements comprising:
 - actuarial gains and losses changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. This charged to the Pensions Reserve as Other Comprehensive Income & Expenditure.
 - the return on plan assets excluding amounts included in net interest on the net defined benefit liability. This charged to the Pensions Reserve as Other Comprehensive Income & Expenditure.
 - Contributions paid to the Kent County Council pension fund cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and any amounts payable to the fund but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Contributions to the pension scheme are determined by the Fund's actuary on a triennial basis. The most recent actuarial valuation to determine contributions was on 31 March 2019.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

33 - LEASES

Finance Leases - Council as Lessee

The Council currently has a number of arrangements which it classifies as finance leases, including vehicles and the operation of the leisure centre.

The future minimum payments due under these arrangements in future years are:

	31st March 2021 £000	31st March 2022 £000
Not more than 1 year Later than 1 year and not later than 5 years Later than 5 years	558 1,473 0	590 905
Later than 5 years	2,031	1,496

Accounting Policy - Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

34 - EVENTS AFTER THE REPORTING PERIOD

The Statement of Accounts was authorised for issue by the Director of Finance & Business Improvement on 18th July 2022. Events taking place after this date are not reflected in the financial statement or notes. Where events taking place before this date provided information about conditions existing at 31st March 2021 the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

Accounting Policy – Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

35 - CASH FLOW STATEMENT - ADJUSTMENTS MADE TO NET SURPLUS OR DEFICIT ON THE PROVISION OF SERVICES FOR NON-CASH MOVEMENTS

	2020/21 £000	2021/22 £000
Depreciation Revaluation Gains & Losses Amortisation of Intangible Assets Movement in Creditors Movement in Debtors Movement in Inventories Movement in Pension Liabilities Derecognition of non-current assets Other Non-Cash items	(5,094) (6,461) (121) (4,427) 1,025 1,879 (2,881) (3,851) (198)	(4,770) (11,883) (132) (5,595) (2,739) (5,008) (5,439) 3,160
	(20,127)	(32,406)

Opening balances reflect adjustments to Cash Flows from Operating and Investing Activities following identification of a prior period error. Full details are disclosed within note 3.

36 – CASH FLOW STATEMENT - ADJUSTMENTS FOR ITEMS INCLUDED IN THE NET SURPLUS OR DEFICIT ON THE PROVISION OF SERVICES THAT ARE INVESTING & FINANCING ACTIVITIES

	2020/21 £000	2021/22 £000
Capital Grants credited to surplus or deficit on the provision of services Proceeds from sale of Property, Plant & Equipment	5,791 1,962	4,024 4,329

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of this council in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and nondomestic rates. Respective shares of Balance Sheet items are consolidated into the accounts of billing and precepting authorities.

Collection fund income has been impacted significantly by the Covid-19 pandemic, which is reflected in the deficit figures shown in the statement on the preceding page.

As part of the government's support package to businesses in response to the Covid-19 pandemic, business rates relief was granted to retail, hospitality, leisure businesses for 2021/22. 100% relief was award for the first quarter of 2021/22 followed by 66% for the remaining 3 quarters of the year. The government has reimbursed the council for business rates income lost as a result of the expanded reliefs, through grants amounting to £23.5m, of which £9.4m will be retained by Maidstone. However, as required under statute, these grants are credited to the general fund, leaving a significant deficit on the collection fund from the reduction in amounts collected from ratepayers. This deficit will be repaid from the general fund and by preceptors over the coming years.

Collection rates for Council Tax have been impacted by the Covid-19 pandemic as measures to pursue non-payment were put on hold during 2020/21. Court dates for the issuing of summonses and liability orders only restarted in August 2021, this is likely to have adversely impacted on the overall in-year collection rate. Furthermore, the council has observed a 3% increase in its Local Council Tax Support caseload since the budget expectations were set for 2021/22.

Notes to the Collection Fund

Note 1 - Council Tax

Council Tax income derives from charges raised according to the value of residential properties, which have been classified into 8 valuation bands estimating, for this specific purpose, 1st April 1991 values. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by Kent County Council, the Kent Police & Crime Commissioner, Kent Fire & Rescue Authority and this Council for the forthcoming year and dividing this by the Council Tax base which is the total number of properties in each band adjusted by a proportion to convert the number to a Band D equivalent and adjusted for discounts: 64,089.4 for 2021/22 (63,319.8 for 2020/21) (see table below.) This basic amount of Council Tax for a Band D property, £1,988.63 for 2021/22 (£1,899.29 for 2020/21), is multiplied by the proportion specified for the particular band to give an individual amount due. Parish Precepts are added to this basic amount.

The bands, number of dwellings in each, the multiplier for each and the resultant tax base are detailed in the table below.

	Number of		Council Tax
Band	Dwellings	Multiplier	Base
Band A (incl disabled relief)		5/9	0.8
Band A		6/9	1,742.5
Band B		7/9	5,029.6
Band C		8/9	14,007.5
Band D		9/9	16,592.8
Band E		11/9	11,237.3
Band F		13/9	7,849.3
Band G		15/9	6,741.6
Band H		18/9	692.0
Other			196.0
			64,089.4

Note 2 - Business (Non-domestic) Rates

The Council collects Business Rates for its area based on rateable values (as determined by the Valuation Office Agency) and multipliers set by Central Government. There are two multipliers:

- Standard Multiplier 51.2p / £ Rateable Value (51.2p in 2020/21)
- Small Business Multiplier 49.9p / £ Rateable Value (49.9p in 2020/21)

The rateable value at 31st March 2022 was £150.243m (£150.243m at 31st March 2021).

For 2021/22, it was calculated that the Council would receive £25.093m in business rates (£24.128m in 2020/21).

A system of Tariff and Top-Up payments operates on the localised shares distributed to local government bodies. A significant proportion of Maidstone's retained share £19.339 in 2021/22, (£19.339m in 2020/21) is subsequently 'top-sliced' and returned to the Government for redistribution across local government.

A further Safety Net or Levy system acts to ensure that any local authority is protected from a net localised business rate yield of less than 92.5% of its Baseline Funding level set by the government. In these circumstances a local authority will receive a Safety Net grant. This grant is paid for by imposing a 50% levy on localised business rate receipts in excess of their Baseline Funding level.

Since April 2013, the Council has participated in a pooled arrangement with Kent County Council, Kent Fire and Rescue Authority and other district councils in Kent in order to minimise the levy payment due to Central Government and thereby maximise the retention of locally generated Business Rates.

Business Rates surpluses/deficits declared by the Billing Authority in relation to the Collection Fund are apportioned to the relevant precepting bodies and Government in the subsequent financial year in their respective proportions.

GLOSSARY OF TERMS

ACCOUNTING POLICIES

The specific policies and procedures used by the Council to prepare the Statement of Accounts. These include any methods, measurement systems and procedures for presenting disclosures.

ACCOUNTS

Statement aggregating items of income and expenditure and assets and liabilities. The accounts may show detailed transactions for every activity (generally used for management and control purposes during a financial year) or be summarised to show the overall position at the end of the period. The latter are known as final accounts and show both the net surplus (profit) or deficit (loss) and a balance sheet of the assets, liabilities and other balances at the end of the accounting period. Councils are required to publish a Statement of Accounts as specified in the Accounts and Audit Regulations 2011.

ASSETS HELD FOR SALE

Assets that the Council are actively marketing for sale, and for which there is a reasonable expectation that the sale will take place within one year of the Balance Sheet date.

BALANCE SHEET

A statement of the assets, liabilities and other balances of the Council at the end of an accounting period.

BALANCES

Capital or revenue reserves of the Council made up of the accumulated surplus of income over expenditure on the general fund or any other account. Revenue balances may be utilised to provide for unforeseen circumstances, to ensure that payments can be made pending the receipt of income, and if justified they may be used to reduce the collection fund levy.

CAPITAL EXPENDITURE

Generally, expenditure which is of value to the Council in the provision of services beyond the end of the financial year in which it was incurred, e.g. purchase of land and buildings, construction or improvement of buildings.

CAPITAL FINANCING

The raising of money to pay for capital expenditure. Usually the cost of capital assets is met by borrowing, but capital expenditure may also be financed by other means such as leasing, contributions from the revenue accounts, the proceeds of the sale of capital assets, capital grants, reserves and other contributions.

CAPITAL RECEIPTS

Proceeds from the sale of capital assets. Capital receipts can be used to repay the debt on assets financed from loan or to finance new capital expenditure, subject to compliance with statutory requirements.

COLLECTION FUND

Councils that collect precepts and non-domestic rates on behalf of other authorities are required to maintain a Collection Fund to summarise the collection and payments of precepts, and any associated adjustments.

CREDITORS

Amounts owed by the Council for work done, goods received, or services rendered but for which payment had not been made at the date of the balance sheet.

DEBTORS

Sums of money due to the Council but unpaid at the balance sheet date.

DEPRECIATION

The measure of the wearing out, consumption, or other reduction in the useful economic life of a non-current asset, whether arising from use, passage of time or obsolescence through technological or other changes.

GENERAL FUND

The main revenue account of a charging authority that summarises the cost of all services provided by the Council.

HERITAGE ASSETS

Heritage Assets are defined as assets with historical, artistic, scientific, technological, geophysical or environmental qualities that are held and maintained principally for their contribution to knowledge or culture.

INTANGIBLE ASSETS

Intangible assets are assets that do not have a physical substance but are identifiable and controlled by the Council, such as computer software.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS)

These are the accounting standards (as adapted for the public sector) that the Council are required to follow when preparing the annual Statement of Accounts.

INVESTMENT PROPERTIES

Investment properties are those that are used solely to earn rentals and/or for capital appreciation.

PROPERTY, PLANT & EQUIPMENT

Assets that have physical substance and are held for use in the provision of services or for administrative purposes on a continuing basis.

REVENUE EXPENDITURE FUNDED FROM CAPITAL BY STATUTE

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of property, plant or equipment, and is charged as expenditure to the relevant service revenue account in the year.

REVENUE SUPPORT GRANT

A general grant paid by central government to local authorities to help finance the cost of services. It is paid to charging authorities for credit to the Collection Fund.

REVENUE ACCOUNT

An account which records the day to day expenditure and income of the Council on such items as salaries and wages, running costs of services, the purchase of consumable materials and equipment, and the financing costs of capital assets.

SUPPORT SERVICES

An allocation of the net cost of the administrative and professional departments which provide support for all the Council's services (e.g. Executive Services, Finance, Personnel), together with the costs of pooled administrative buildings.

USABLE CAPITAL RECEIPTS

Funds received by an authority from the sale of capital assets that have yet to be used to finance capital expenditure or repay debt.

UNUSABLE RESERVES

These are non-cash reserves that are kept to manage the accounting processes for non-current assets, retirement benefits and employee benefits and do not represent usable resources for the Council.

USABLE RESERVES

These are funds available to the Council and represent specific amounts setaside for future policy purposes or earmarked purposes, including the General Fund and the Capital Receipts Reserve.

INDEPENDENT AUDITOR'S REPORT

To follow
